Art Unit: 1711

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 13-14, drawn to an aliphatic tertiary amine, classified in class 564, subclass 463.
- II. Claims 15-16, drawn to a bicyclic amine, classified in class 564, subclass 457.
- III. Claims 17, drawn to bicyclic heterocyclic amine, classified in class 546, subclass 26.
- IV. Claims 18-20, drawn to five membered heterocyclic amine, classified in class 548, subclass 341.1.
- V. Claims 22-27, drawn to five membered heterocyclic amide, classified in class 548, subclass 335.5.

The inventions are distinct, each from the other because:

Inventions I-V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation. The structures I-V aren't related. They have no common features.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 1711

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

A telephone call was made to A. Crawford on March 24, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rachel F. Gorr whose telephone number is 571-272-1072. The examiner can normally be reached on Mon., Tues., Thurs., Fri., from 7:00 AM to 5:30 PM.
